

Do Or Decide: Matching Styles

How was the decision made?

Read the stories on the right, then draw a line to the decision style that was used on the left.

A group of students from one club and another club meet to come up with a plan for how they will share the cafeteria.

Directive

The group leader listens to everyone's ideas and then makes the decision for all.

A team is deciding on what their team name should be. Everybody shares their idea and the name that the majority of students like, becomes the name.

Democratic

A sports Coach makes a plan with 10 seconds on the clock

A family decides together where they want to go on vacation.

A manager asks their employees to vote if they'd rather wear black or red uniform shirts

Consensus
